### **Katvig**

Katvig is the story of the little company that in just six years has grown throughout Denmark's borders with the special and contemporary designs for children. From the first Katvig collection the aim has been to attract fashion conscious parents and the classic stripes are now being worn by children of all ages. However, Katvig is much more than stripes and apple prints and has therefore long been established as one of Scandinavia's leading children's wear labels. Katvig's designs are courageous and dare to be unique. The methods of production are now being refined. Katvig is actively looking at all areas of production to eventually attain manufacturing processes that are as green and sustainable as possible. With their products now available in more than 40 countries, the eye catching and spectacular clothes from the Katvig collections seem set to be an essential part of the wardrobe for cool kids around the globe.
